THE CARTESIAN® COLLECTION

Understated luxury meets state-of-the-art features in a line of curated and customizable storage solutions designed to meet the unique demands of your space.
THE CARTESIAN® COLLECTION
SEE WHAT’S POSSIBLE

Like the mathematical system that inspired its name, The Cartesian Collection offers boundless options for every dimension of your design. Streamline your design decisions with our preconfigured vanity collection, or explore our modular options to create a personalized storage solution.
THE CARTESIAN® COLLECTION

Meet the world’s most accommodating vanity. Cartesian offers preconfigured and modular storage solutions that add functionality anywhere — without compromising style.

NEW!

FREESTANDING VANITY
See page 4

Combining classic elegance with easy installation, the Cartesian Freestanding Vanity is available in three sizes and five vanity glass options that pair perfectly with the Polished Stainless Steel leg finish.

CURATED VANITY
See page 6

PRECONFIGURED

Take the guesswork out of vanity design. The Curated Cartesian Vanity collection streamlines the decision-making process with a handpicked selection of sizes, finishes, and must-have features.
MODULAR VANITY

See page 8

Explore the possibilities with Cartesian’s Modular Vanity options. Customizable configurations let you create a flexible storage solution that flawlessly fits in any space.

BUILD YOUR OWN

Ready to explore the possibilities Cartesian® can bring to your design? Here’s how to create the ideal storage solution from start to finish.

1 DETERMINE OVERALL SIZE OF VANITY STARTING WITH WIDTH

Choose from multiples of 12”, 24”, 30”, and 36” (Cartesian drawer width options) to create the overall length that you would like. This defines the number of columns and width of each column that you can build upon.

Roben offers Vanity Tops up to 72” wide, see pages 12 and 13 for more details.
2 DETERMINE EACH COLUMN HEIGHT

Select column height based on multiples of 7-¼” and 15” to create any overall height that you would like per column.

Not every column has to be the same height, but all columns must be the same width and depth. The ideal height for your countertop is 34-½” off the ground.

When using an undercounter sink, the first 15” requires plumbing clearance.

7-¼” options
- Tip Out Drawer
- Plumbing Drawer
- Full Drawer
- False Front

15” options
- Plumbing Drawer
- Full Drawer

Ganging kits are required to combine more than one column of drawers.

3 SELECT DEPTH OF YOUR ENTIRE VANITY SOLUTION

Select depth of your entire vanity solution by choosing either 18” (for a 19” depth vanity top) or 21” (for a 22” depth vanity top).

NOTE: All columns must be the same depth.

4 CHOOSE YOUR SIDE KITS

You must choose 1 side kit for every exposed side. Side kits cannot be stacked on top of one another. Side kit height options are 7-¼”, 15”, 22-½” and 30”. Side kits are sold separately. They are available individually or as pairs. Side kit depth must match depth selected for your overall vanity solution.
