Create a personalized storage solution that combines modern luxury with the unparalleled versatility of modular design.

Room Designer: Nicholas Moriarty Interiors
Meet the world’s most accommodating vanity. Like the mathematical system that inspired its name, Robern’s Cartesian wall-mount vanity offers infinite possibilities for every dimension of your design. Customizable configurations ensure storage that perfectly suits your needs.

Expand your options with flexible solutions that add functionality anywhere — without compromising style. Blending superior craftsmanship and state-of-the-art features, Cartesian adapts to your unique design and the demands of your space.
Take the guesswork out of vanity design. Robern’s Curated Cartesian vanity collection streamlines the decision-making process with a handpicked selection of vanities to ensure a flawless fit that complements any design.

Simply choose from three popular sizes, three stunning color combinations, and an optional night light to create a personalized vanity that transforms the everyday routine.
Choose storage options to maximize efficiency in your space, then select the color palette and finishing touches to customize your design.
NIGHT LIGHT OPTIONS:

- Provide soft light to illuminate drawer interior and for wayfinding light
- Three color temperatures (selectable 2700K/4000K or 5000K) to color match with existing bathroom lighting and accompanying Roben lighted products.

Ready to explore the possibilities Cartesian can bring to your design? Here’s how to create the ideal storage solution from start to finish.

1 DETERMINE OVERALL SIZE OF VANITY STARTING WITH WIDTH

Choose from multiples of 12”, 24”, 30”, and 36” (Cartesian drawer width options) to create the overall length that you would like. This defines the number of columns and width of each column that you can build upon.

Robern offers Vanity Tops up to 72” wide, see pages 6 and 7 for more details.

robern.com/cartesian
2 DETERMINE EACH COLUMN HEIGHT

Select column height based on multiples of 7-½” and 15” to create any overall height that you would like per column.

Not every column has to be the same height, but all columns must be the same width and depth. The ideal height for your counter top is 34-½” off the ground.

When using an undercounter vessel, the first 15” requires plumbing clearance.

7-½” options
• Tip Out Drawer
• Plumbing Drawer
• Full Drawer

15” options
• Plumbing Drawer
• Full Drawer

Ganging kits are required to combine more than one column of drawers.

3 SELECT DEPTH OF YOUR ENTIRE VANITY SOLUTION

Select depth of your entire vanity solution by choosing either 18” (for a 19” deep vanity top) or 21” (for a 22” deep vanity top).

NOTE: All columns must be the same depth.

4 CHOOSE YOUR SIDE KITS

You must choose 1 side kit for every exposed side. Side kits cannot be stacked on top of one another. Side kit height options are 7-½”, 15”, 22-½” and 30”. Side kits are sold separately. They are available individually or as pairs. Side kit depth must match depth selected for your overall vanity solution.
